

Knowledge Inside

Jan Top

Knowledge Inside

- Knowledge is a key asset for competitive business
- Intelligence can be automated and shared - the Semantic Web
- Agrifood applications require specific knowledge models and applications

Some projects

- ERDSS - apply automated expert reasoning to predict emerging food safety risks
- Tiffany - Knowledge sharing in food research at TI Food & Nutrition
- Hightech Europe - disseminate knowledge about novel food processing technologies on the web
- Semantic Excel - supporting reuse of spreadsheet data from experimental research
