

## Annex I: Overview of potential metabolites of NFZ

## Annex II: Overview of identified metabolites of NFZ in microsomal, S9 and *E. Coli* incubates by LC-ToF-MS

**Annex III: Metabolites identified in microsomal, S9 and E. Coli incubates and with addition of cysteine and mercaptoethanol by LC-ToF-MS analysis (retention times of LC-system 2)**

**Annex IV: Metabolites identified in microsomal, S9 and E. Coli incubates and with addition of cysteine and mercaptoethanol by LC-MS/MS neutral loss scanning**
