

YAHUDIA NATUR RESERVE

VEGETATION MAP

Map 5.1 LEGEND

map code of unit	title and description of unit	floristic units included	
Q	formation: <i>Quercus ithaburensis</i>		
QA	alliance: <i>Avena sterilis</i> - <i>Hordeum bulbosum</i>		
QA1a	<i>Quercus ithaburensis</i> - <i>Avena sterilis</i> - park forest	<i>Quercus ithaburensis</i> - <i>Avena sterilis</i> typical	268
QA2a		<i>Quercus ithaburensis</i> - <i>Lolium rigidum</i> typical	
QA2b		<i>Quercus ithaburensis</i> - <i>Lolium rigidum</i> var. <i>Hordeum bulbosum</i> - <i>Lolium rigidum</i> - <i>Ranunculus marginatus</i>	
QA1b	<i>Ziziphus lotus</i> -savannoid structure	<i>Quercus ithaburensis</i> - <i>Avena sterilis</i> var. <i>Ziziphus lotus</i>	
QA3a	<i>Ziziphus spinachristi</i> - savannoid structure	<i>Ziziphus spinachristi</i> var. <i>Dichanthium annulatum</i> - <i>Adonis aleutica</i> var. <i>Silene aegyptiaca</i> - <i>Achusa aegyptiaca</i>	
QA4a	<i>Minuartia formosa</i> - <i>Allium nigrum</i> - grassland		
QA4b	<i>Pulicaria arabica</i> - <i>Stipa capensis</i> - grassland		
QA5	<i>Ridolfia segetum</i> - <i>Daucus aureus</i> - weedy grassland		
QS	alliance: <i>Styrax officinalis</i> - <i>Farula tingitana</i>		
QS1		<i>Pistacia atlantica</i> - <i>Calyptoma villosa</i> - <i>Anogramma leptophylla</i>	266
QS2	<i>Quercus ithaburensis</i> - <i>Styrax officinalis</i> - maquis of cliffs	<i>Pistacia palaestina</i> - <i>Farula tingitana</i> - <i>Arenaria leptocladus</i>	
QS3		<i>Asphodeline lutea</i> - <i>Lonicera atruaca</i> - <i>Fibigia clypeata</i>	
QS4		<i>Arundo donax</i> - <i>Rhamnus palaestina</i> - <i>Ephedra campylopa</i>	
QS5	<i>Quercus ithaburensis</i> - <i>Styrax officinalis</i> - park forest of steep declivities	<i>Parietaria judaica</i> - <i>Delphinium ithaburensis</i>	
QS6a	<i>Quercus calliprinos</i> - <i>Colutea istria</i> - maquis of very steep facing north declivities	<i>Asparagus aphyllus</i> var. <i>Quercus calliprinos</i> - <i>Quercus boissieri</i> var. <i>Colutea istria</i> - <i>Pyrus syriaca</i>	
QS6b			
QS7	<i>Euphorbia hieraculymitana</i> - <i>Psoralea bituminosa</i> - <i>Alcea digitata</i> - grassland with shrubs		
SN	formation: <i>Salix acmophylla</i>		
SN1a	<i>Merium oleander</i>	<i>Salix acmophylla</i> - <i>Merium oleander</i> typical	264
SN1b	<i>Salix acmophylla</i> - <i>Merium oleander</i> - woody vegetation of streams	var. <i>Fraxinus syriaca</i> - <i>Platanus orientalis</i>	
SN2a	<i>Rubus sanctus</i> - <i>Mentha longifolia</i> - shrubby vegetation of streams	var. <i>Rubus sanctus</i> - <i>Capparis spinosa</i> var. <i>Mentha longifolia</i> - <i>Cyperus longus</i> - <i>Alopecurus myosuroides</i>	
SN2b			
SN3	<i>Lemna gibba</i> - <i>Nasturtium officinale</i> - wet grassland		
SN4	<i>Paspalum pampaloides</i> - <i>Echinochloa crusgallii</i> - wet grassland		
SS	formation: <i>Salsola vermiculata</i> - <i>Salvia dominica</i>		
SS1	<i>Salsola vermiculata</i> - <i>Salvia horminum</i> - shrubland		
SS2	<i>Salvia dominica</i> - <i>astragalus macrocarpus</i> - shrubland		
	DENSE FOREST		
	MODERATE FOREST		
	SPARSE FOREST		
S	STYRAX OFFICINALIS CONCENTRATION		
A	AMYGDALUS SP. CONCENTRATION
