 April, 1981

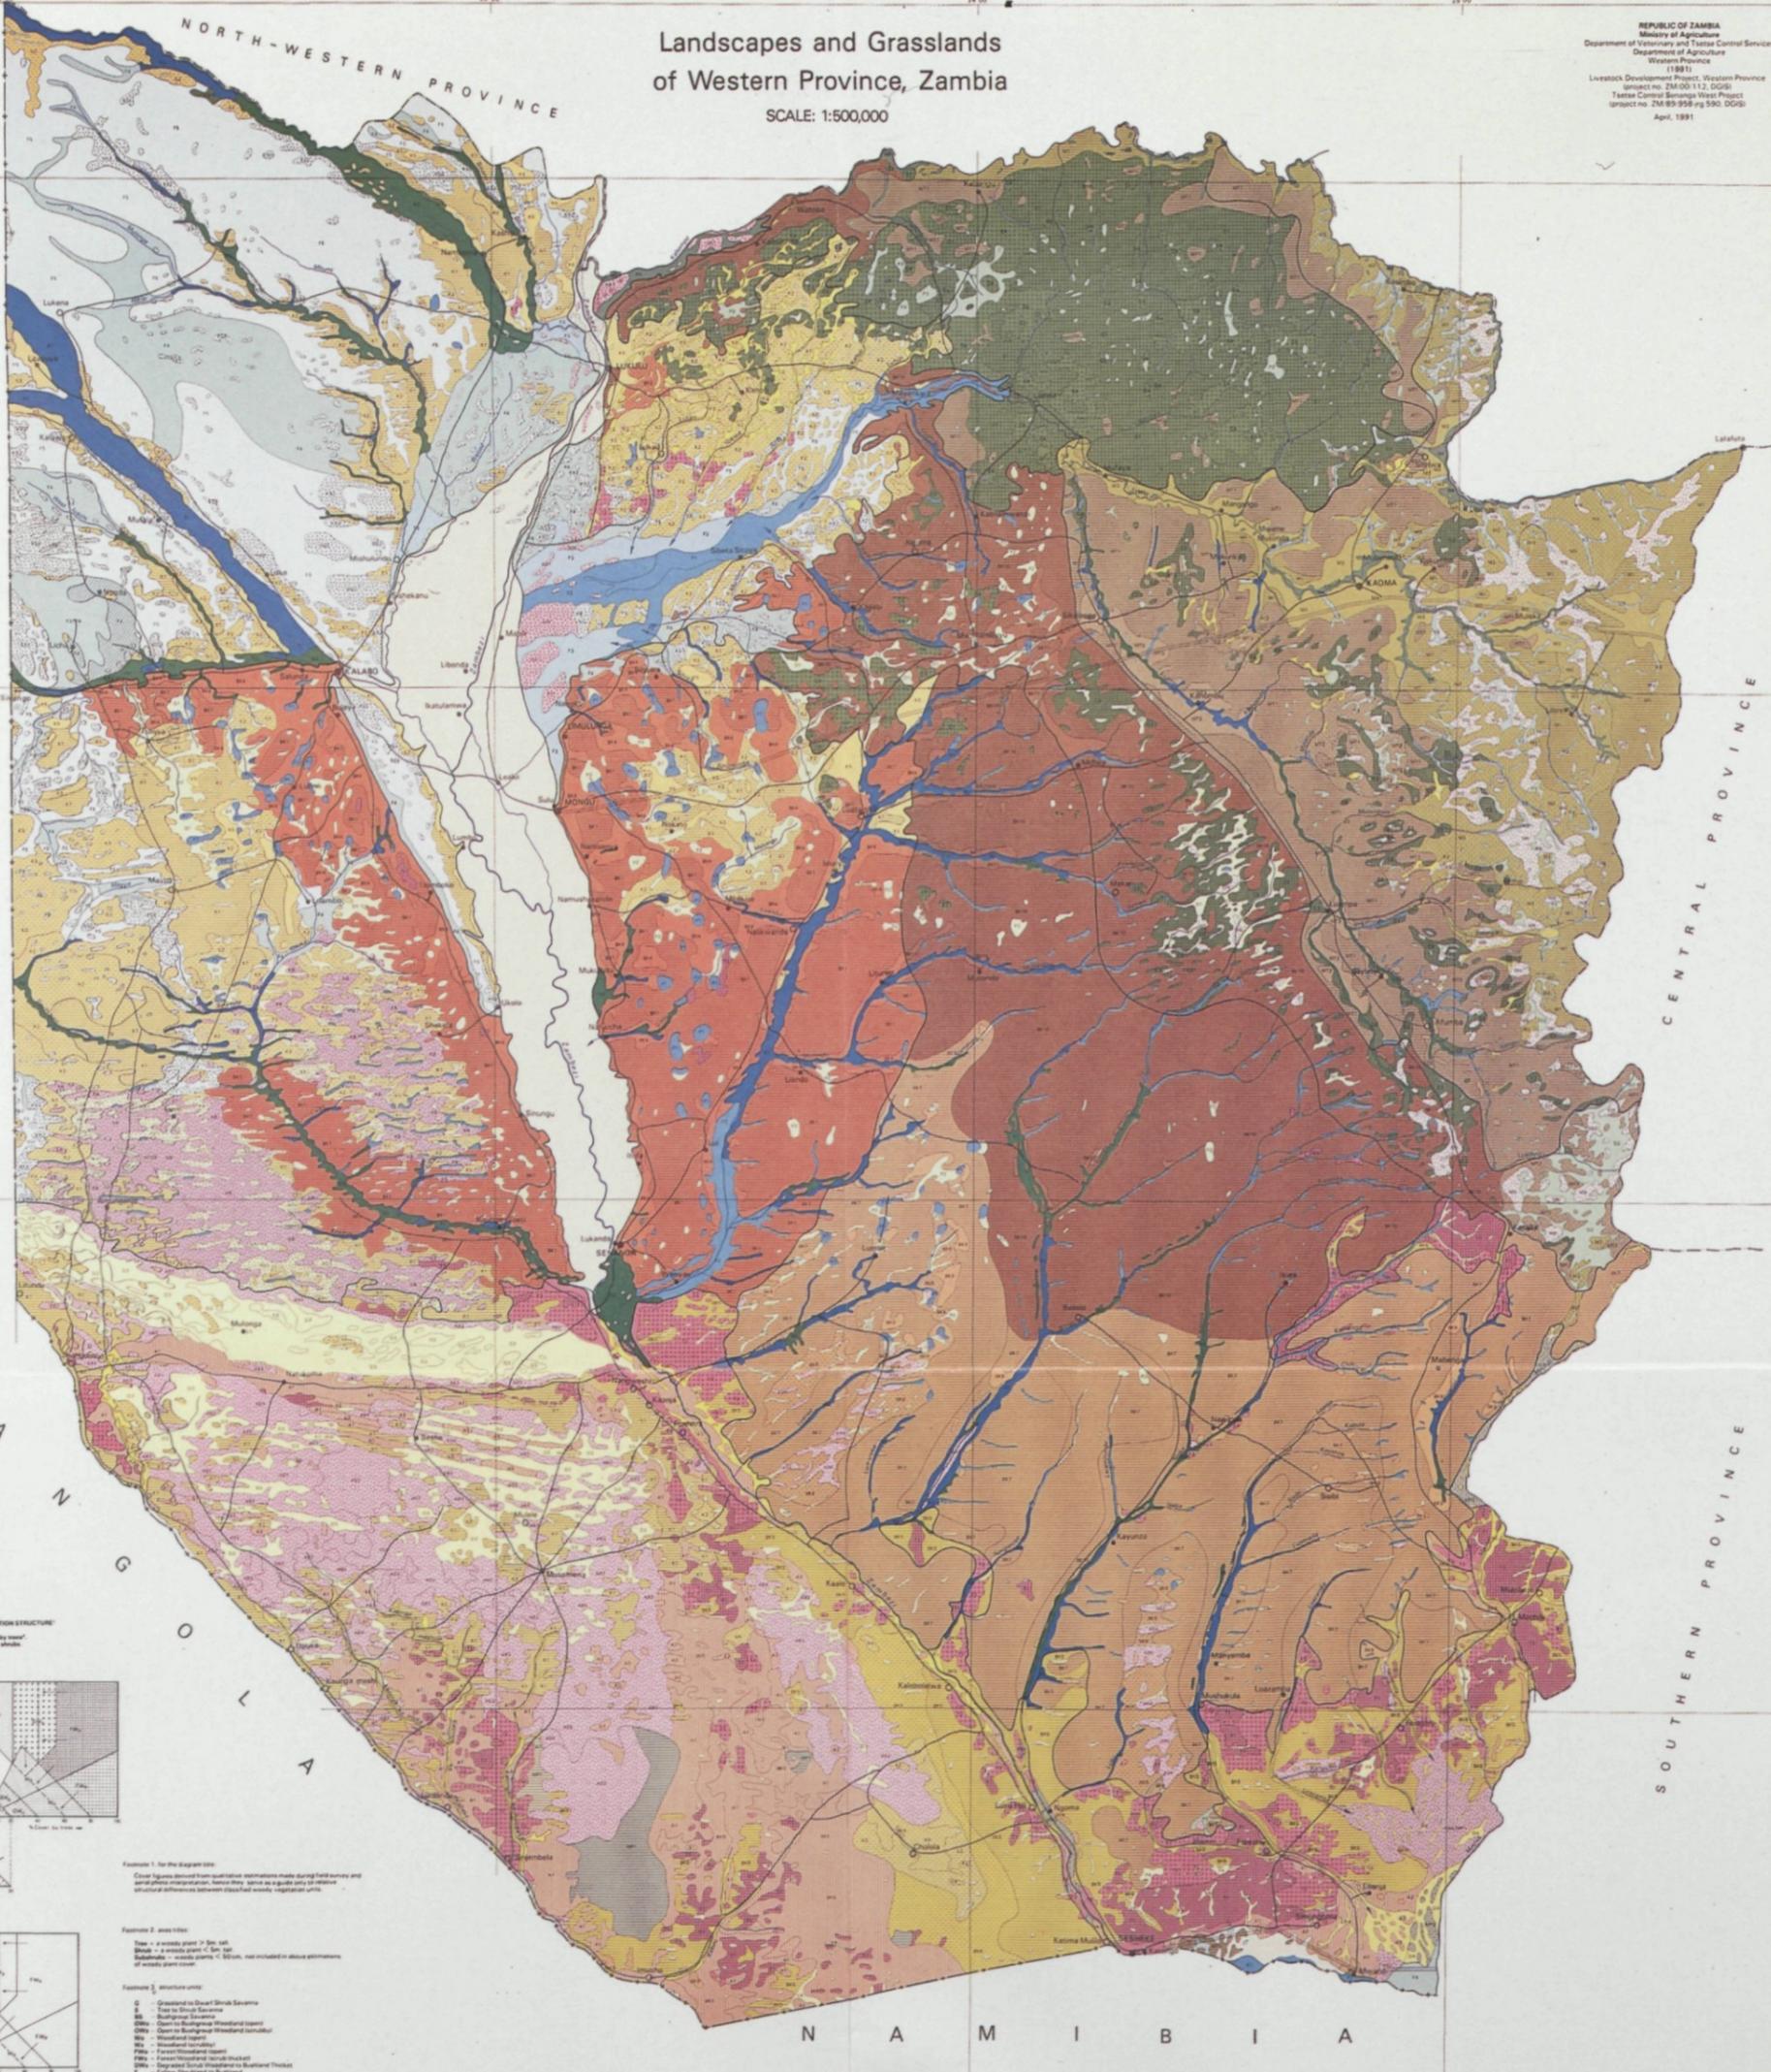

Table KEY TO VEGETATION STRUCTURE

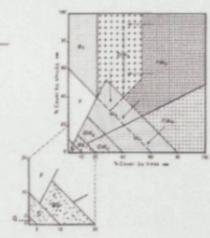

Figure 1 - for the diagram use
 Cover figures derived from qualitative estimations made during field survey and aerial photograph interpretation, hence they serve as a guide only to relative structural differences between classified savanna vegetation units.

Figure 2 - area 100
 Tree = a woody plant > 5m tall
 Bush = a woody plant < 5m tall
 Substrate = usually grasses < 50cm, not included in above estimations of woody cover level.

Figure 3 - woodland units
 1 - Grassland to Open Bush Savanna
 2 - Tree to Open Bush Savanna
 3 - Open to Bushland Woodland
 4 - Open to Bushland Woodland
 5 - Woodland
 6 - Woodland
 7 - Forest/Thicket
 8 - Forest/Thicket
 9 - Forest/Thicket
 10 - Forest/Thicket
