ISOTYPES OF WHICH HOLOTYPES WERE DESTROYED
IN BERLIN

This is a preliminary list of collectors of African plants described by German botanists in Berlin before 1943. As all specimens were distributed as duplicates, usually none of the herbaria cited below has all numbers of the collectors cited. The herbaria are indicated with the abbreviations of the Index Herbariorum.

Albers (EA).

Böhm, R. (CORD, Z).

Buettner, E. (P).

Busse, W. C. O. (EA, most, but several of which some [below nr. 1000 only (?)] not in EA represented in BM, BR, BRSL, G [many], HBG [many], K, L, LY, MO, W).

Dekindt, E. (COI, E, LISC, MPU, P : 258 numbers).

* Laboratorium voor Plantensystematiek, Gen. Foulkesweg 37, Wageningen, Netherlands.

In redazione il 1 Aprile 1964.
Fischer (EA, K, LE).
