2015-2016: PhD Defence

Lessons learned

Bottom-up approach is successful

Lessons learned

Bottom-up approach is successful

Knowledge does not travel by itself

Lessons learned

Bottom-up approach is successful

Knowledge does not travel by itself

Make full use of momentum (although you are not yet ready)

Lessons learned

Bottom-up approach is successful

Knowledge does not travel by itself

Make full use of momentum (although you are not yet ready)

Allow everybody it own Eureka! experience (repeat this several times)

Lessons learned

Bottom-up approach is successful

Knowledge does not travel by itself

Make full use of momentum (although you are not yet ready)

Allow everybody it own Eureka! experience (repeat this several times)

Rotterdam can benefit more from being a living showcase and test site

Thank you for your attention
