Deltas in Times of
Climate Change
Rotterdam 2010
Connecting world science and deltas

Climate is Changing: what else

- GBM Basin: Bangladesh Delta
- Cyclone, flood and drought
- South-western coastal region
- Human induced change: shrimp farming
- Salinity ingresssion
- High population growth & incidence of poverty
- Impact on livelihood, food security and water availability
- People displacement, migration and conflicts

CC Management Initiatives and Challenges

- Adaptation initiatives by GO and NGOs
- Why Adaptation initiatives is not yet very successful?
- Govt. Policy: Climate Change Strategy Action Plan 2009
- What should be the upcoming challenges

**Thank You & Welcome to
Exhibition Hall**
