

Non-recurrent congestion, incident and accident duration

PhD Martin Adler
KvK stakeholder meeting TNO RWS VU
04.02.2013

Aim, data and method

Incident management → Incident duration → Non-recurrent congestion

Incident data (MISTICA) + Congestion data (TNO) +
Precipitation (buienradar) + Temperature and Wind
(KNMI)

OLS, Heckman selection correction bias, location
specific fixed effects
