climate
as an
opportunity

Bakenhof (Arnhem) – floodplain playground

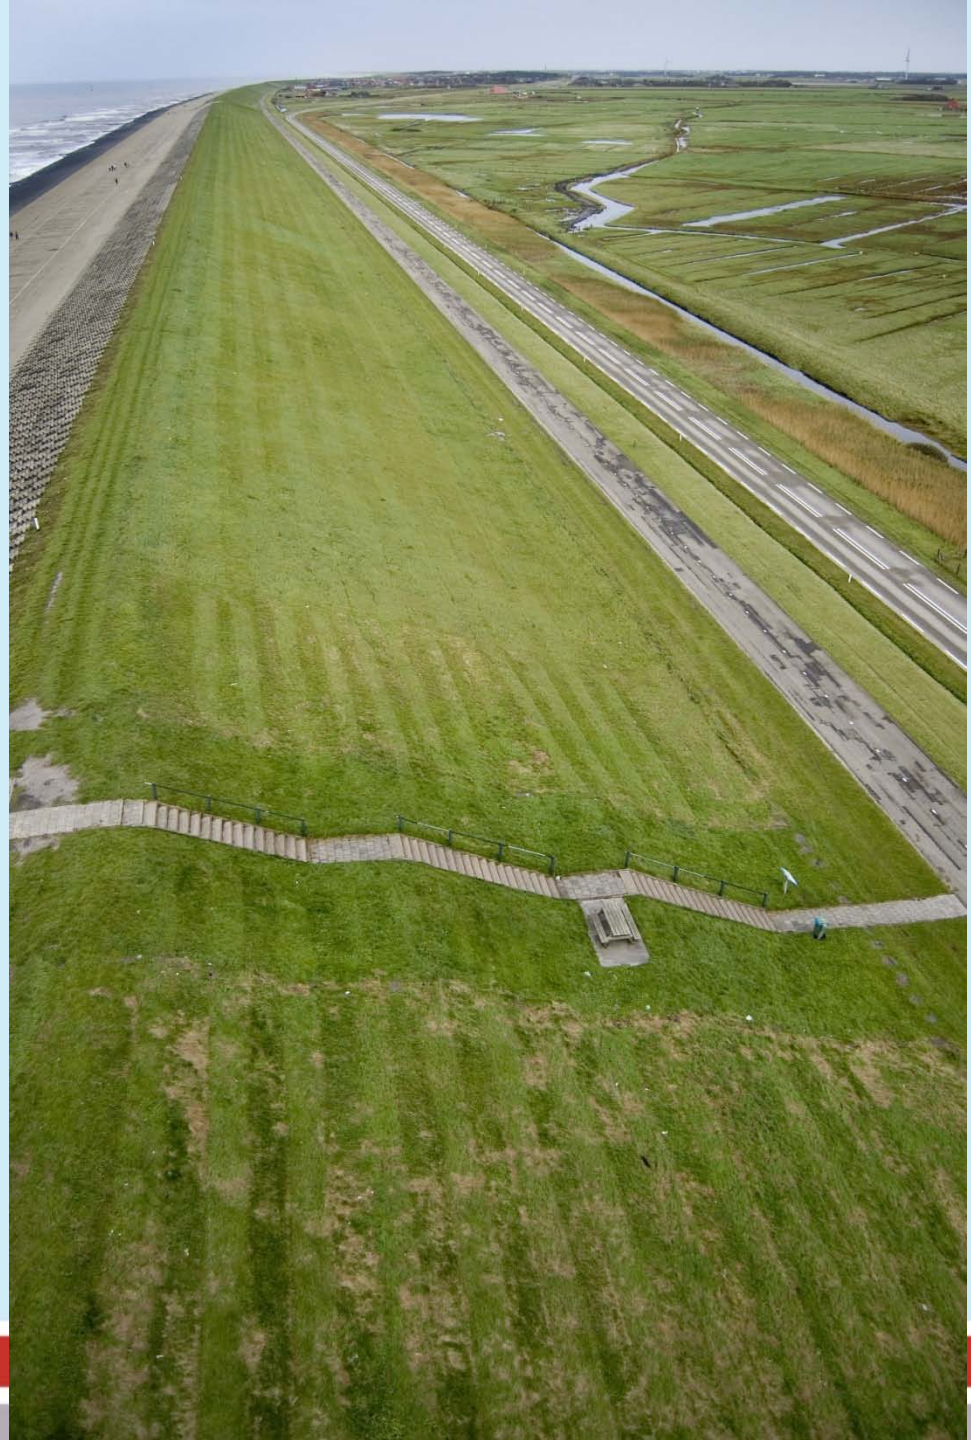

A scenic view of a waterway in Helmond, featuring a wooden bridge, lush green grass, and large trees. The waterway is a narrow canal with a concrete-lined bank and a small weir structure. The bridge is made of dark wood and has a simple railing. The surrounding area is a well-maintained park with large, mature trees and a person sitting on a bench with a bicycle. The water reflects the sky and the surrounding greenery.

Helmond – waterway the Aa back in the city
