A different angle...

Spatial Adaptation

- Urban planning
- Participatory approaches

Adaptation Support Tool

- Co-design
- Spatial adaptation
- Rapid Assessment Tool
- Urban planning

Deltares

Adaptation Support Tool

The screenshot displays the 'Blue Green Dream' interface. On the left, a 'ranked list of measures' is shown with items like 'Cooling with elements', 'Adding shrubbery in streetscape', and 'Adding grass/herbs in streetscape'. On the right, a 'dashboard; performance indicators' panel shows metrics for 'Contribution', 'Climate', and 'Water quality'. The central map shows the project area in Oaxaca, Mexico, with various colored overlays representing different measures.

Oaxaca, Mexico

Deltares

Adaptation Support Tool

Successes

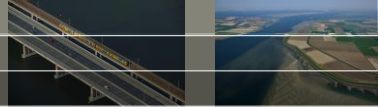

- Spatial dimension – concrete plans
- Participatory planning – representative plans

Challenges

- Planning over time
- Different future scenarios/uncertainty
- Decision making

Deltares

New frontiers?

Adaptation planning

- Space
- Time
- People

Future challenges

- Communicating uncertainty to diverse groups

Adaptation pathways

Deltares

Thank you.
