

LUCIANA NERY  
Deputy Chief Resilience Officer

**RIO RIORESILIENTE**

## CLIMATE SURPRISES, IDEAS, CHALLENGES, DREAMS AND CHANGES IN RIO DE JANEIRO

CO<sub>2</sub>

- Carbon inventories

- C40 Cities

- CDP

- Investments in mobility

- Our climate?

### Main Shocks and Stresses of Rio de Janeiro

Intense Rains

Strong Winds

Heat Waves and Heat Islands

Increase in sea level rise

Droughts

Epidemics and Pandemics

Saturated road infrastructure

Agglomeration of people with impact in normalcy

Criminal Acts in the Urban Space

Insufficient Sanitation

## RESILIENCE STRATEGY OF THE CITY OF RIO DE JANEIRO

#1 Increase the knowledge and mitigate impacts of severe weather and climate change

#2 Mobilize Rio to be prepared to respond to extreme weather events and other shocks.

#3 Cultivate green, cool, safe and flexible urban spaces.

#4 Provide high quality basic services to all citizens, through sustainable and resilient use of resources

#5 Promote an inclusive, diversified, circular and low carbon economy.

#6 Increase the overall resilience of citizens and promote social cohesion
