

Braedale Goldwyn, a show breeders' bull

Fiction, one of the new O Man sons

Wa-Del Hayden keeps top 10 position

Sons of their father

Five O Man sons join their sire in top 10 of latest proof run

Devon-based dairy producer and three-time NMR/RABDF Gold Cup finalist Willy Ley shares his thoughts on the latest sire rankings and gives us a glimpse into his AI flask.

No less than five O-Bee Manfred Justice (O Man) sons have taken the top 10 of the latest proof run ranking by storm and the sire-of-sons success doesn't stop there – there are several other progeny in the list, not least being Dutch sire Fiction, who sits in 11th place.

O Man himself still heads the list, with a PLI of £285 and extends his lead, with 563 UK daughters now contributing to his proof. And it's a proof that Willy Ley believes will take some beating.

"Namely because it's a truly commercial proof, so to speak. He's not a bull that carried a lot of early favour with breeders with top show and pedigree herds.

"He was used a lot by solid commercial breeders – daughters have not been pampered in any way. And the figures you see are under true commercial management conditions."

Willy adds that he is using some O Man semen: "He's a good outcross bull now, but too much of it."

He has some heifer calves on the ground so far, but has seen a few daughters milking in other herds.

"And everyone I speak to says how please they are with them.

"He's not a top pedigree bull, but he breeds solid and 'sustainable' cows."

O Man contrasts sharply with the bull in second place – the well-known and respected second-crop sire Braedale Goldwyn. He's up 23 points to PLI £228. At +3.5 Type Merit he is also the highest type sire in the top 10.

"And he really is a type sire – a show breeders' bull, recently taking the Winter Fair in Canada by storm," says Willy.

"He and O Man are the two extremes of the Holstein breed, if you like. They offer different things but they're both excellent bulls."

"I think this proof run highlights that fitness, rather than extreme production or type, is beginning to dominate the scene."

Good survivors

Willy has some Goldwyn daughters milking in his herd. "They're a little fragile as young heifers, but they've grown and matured and really surprised me. They're good 'survivors' and milking well. I'm really pleased with them."

Up in third place is the first O-Man son, Morningview Legend, whose solid all-round proof will find a wide market, according to Willy. "He's got good fat and protein and a good score for those wanting to reduce somatic cell counts, but he's not so good on udders when you look at his proof.

"That said, he could be a very useful bull if you know what you're doing. I've just started to use him."

Skipping to fifth position finds Laudan – a German bull. And a degree of regret from Willy. "I backed the wrong horse here – I used Lancelot instead."

Willy Ley

He says he's seen a few Laudan daughters milking and their owners are very pleased with them. "And there's not that many of them about. He's not been heavily used in the UK and this proof comes with his second crop of daughters."

Willy has tried to get hold of some Laudan semen, without success. "I just didn't catch this bull at the right time and he's getting quite old now, so I'll probably wait and use one of his sons instead.

"And using Lancelot wasn't a bad move – he's in the top 100 and his daughters are doing well."

As for the other O Man sons in the top 10 – including Macomber O-Man Bogart, Lot-O-Rok Oman Jake, Tomlu Oman Dotson and Dutch bull Fiction in 11th position – Willy says he'll be taking a close look at all of them and will use one or two of them on his herd in the near future. "I won't use them all, obviously, but one or two of them will suit my cows and I'll give them a go."

Rachael Porter
