More about: [Amsterdam North-South metro line](#) [coffeeshops](#) [drug policy](#) [Dutch environmental policy](#) [Dutch local elections](#) [Dutch politics](#) [Geert Wilders](#) [news](#) [the Netherlands](#)

Geert Wilders, the Amsterdam North-South metro line, drugs and the environment, these are the main themes in the campaigns for the Dutch local elections to be held on the third of March.

This year, the local elections have taken on added significance because of the fall of the cabinet, which is still fresh in voters' memories. The government crisis is expected to affect the results in the local elections. National politicians are sure to regard the outcome as indicative of their popularity.
