Agricultural Entrepreneurship in the Netherlands

- **5 Agricultural Universities of Applied Sciences**
- **Not a formal study**
- **Different forms**
 - HAS Den Bosch: a final year
 - INHolland Delft and VHL Larenstein: entrepreneurial attitude
 - CAH Dronten: a complete major (180 ECTS) and different minors (each 15 ECTS)
 - WUR: Minor

Contents of the project

- **International entrepreneurial research in Higher Agricultural Education.**
- **Learning and earning.**

Objective:

- ***“To improve agricultural, educational programs on entrepreneurship in the Netherlands”.***

Project steps and results:

- **Analysis of Dutch programs**
- **Selection of countries and institutes**
- **Analysis of international programs**
- **Development of Tools**
- **Improvement and implementation**
- **A network**

My conclusions

- We (I)earned from each other.
- Implementation goes slowly.
- Higher education in the field of Agricultural entrepreneurship is essential for the future of agriculture.
