Stakeholder participation in action: GAP2 experiences on developing a common understanding

Martin Pastoors, Steve Mackinson, Kari Stange
and many GAP2 co-workers

The GAP2 project

- 13 case studies
- + social science
- + policy engaged
- + transfer

Participatory research hitting the brick wall of policy

Is a common understanding:

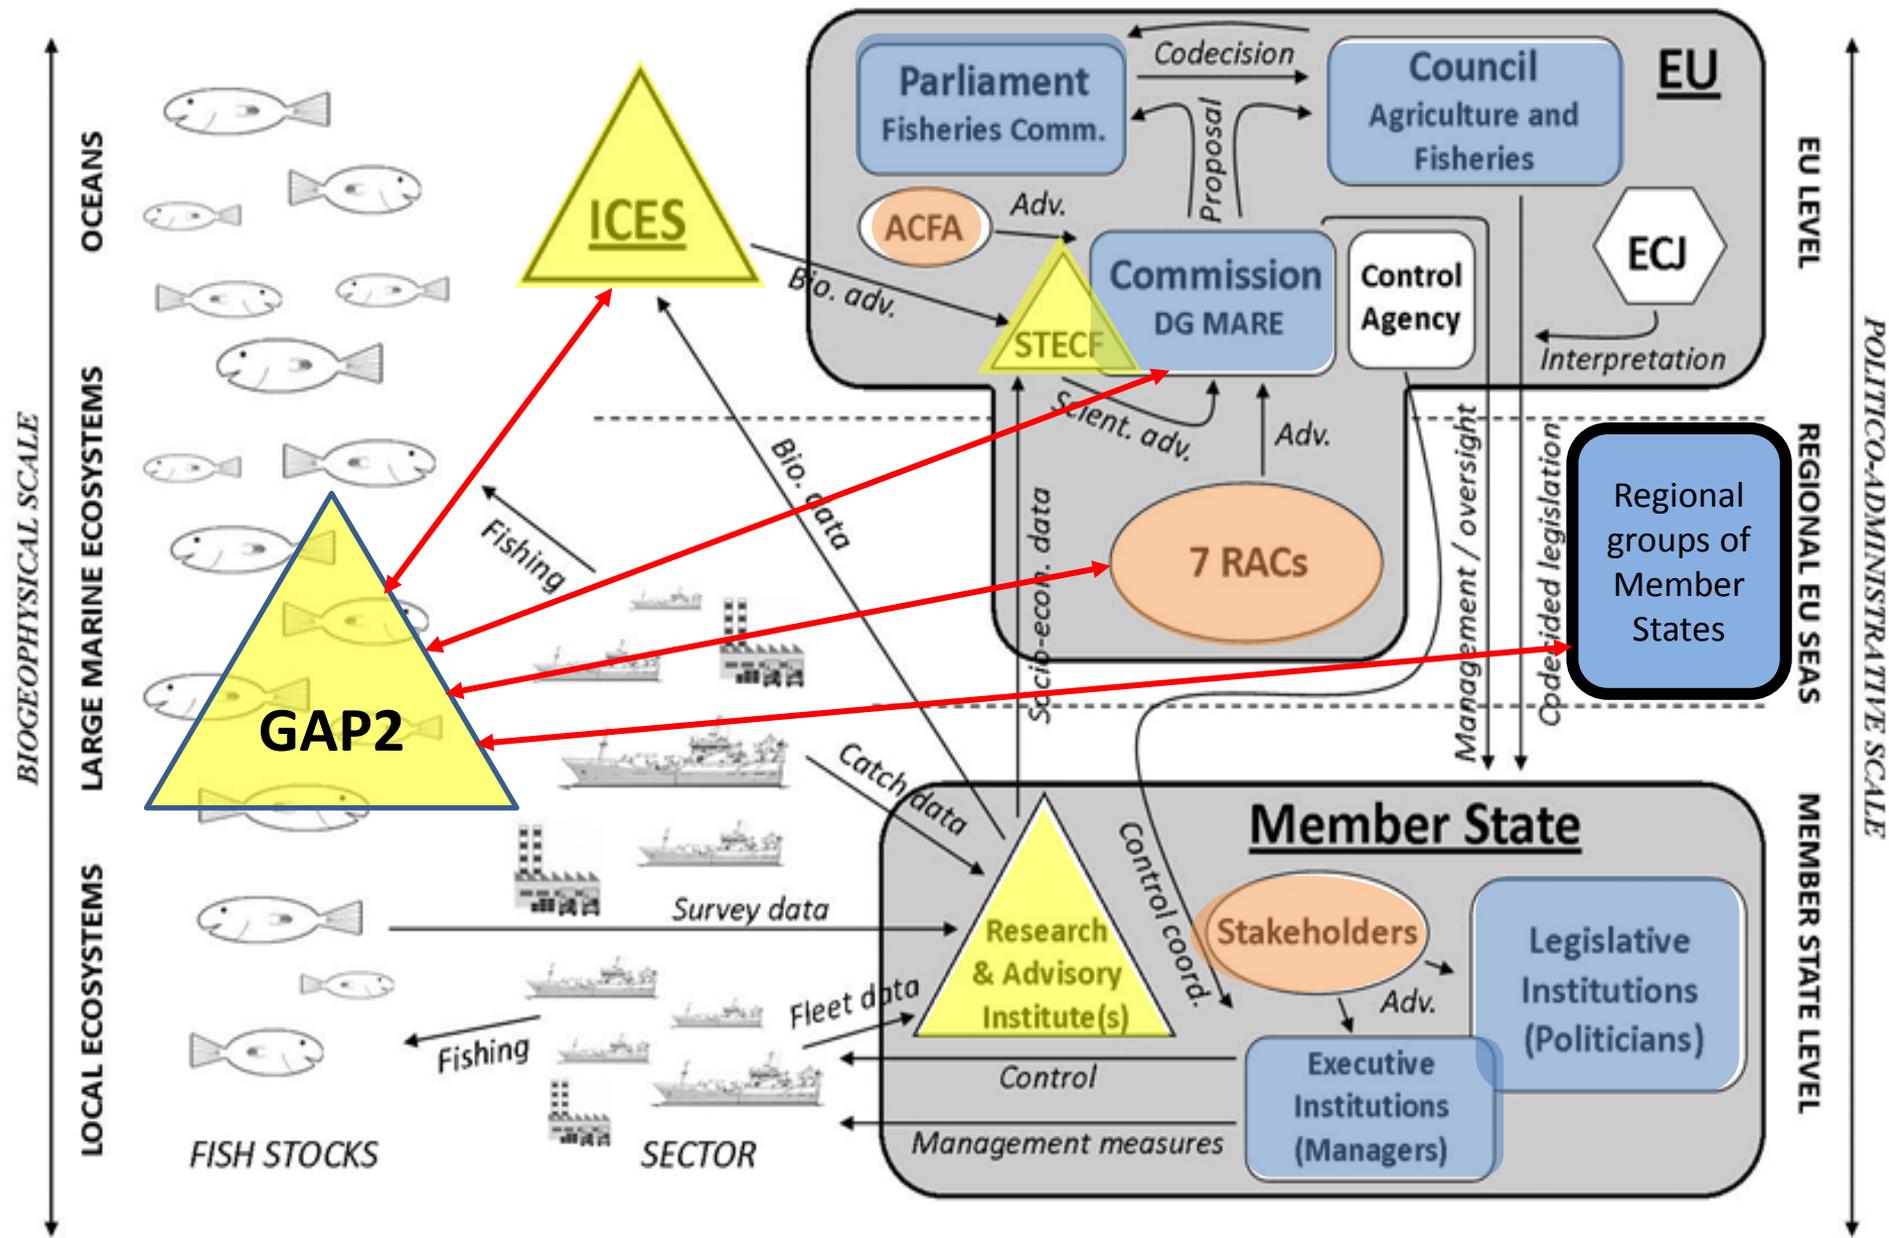

desirable?

feasible?

GAP2 Participatory research in a complex governance landscape

Are you ready?

Hegland, T. J., Ounanian, K., and Raakjær Nielsen, J. 2011. Decentralising the Common Fisheries Policy: getting behind the concept of 'regionalisation'.

Communication and interaction at different levels, with different frames

Explore action

Facilitate dialogue

1. Going out and around

GAP2 exchange to Canada

“What I hear, I forget
What I see, I remember
What I do, I understand”

2. Explore action: Nephrops management

NFFO 2009-04-29

Embedded in the Nephrops case

Kari Stange
Wageningen University

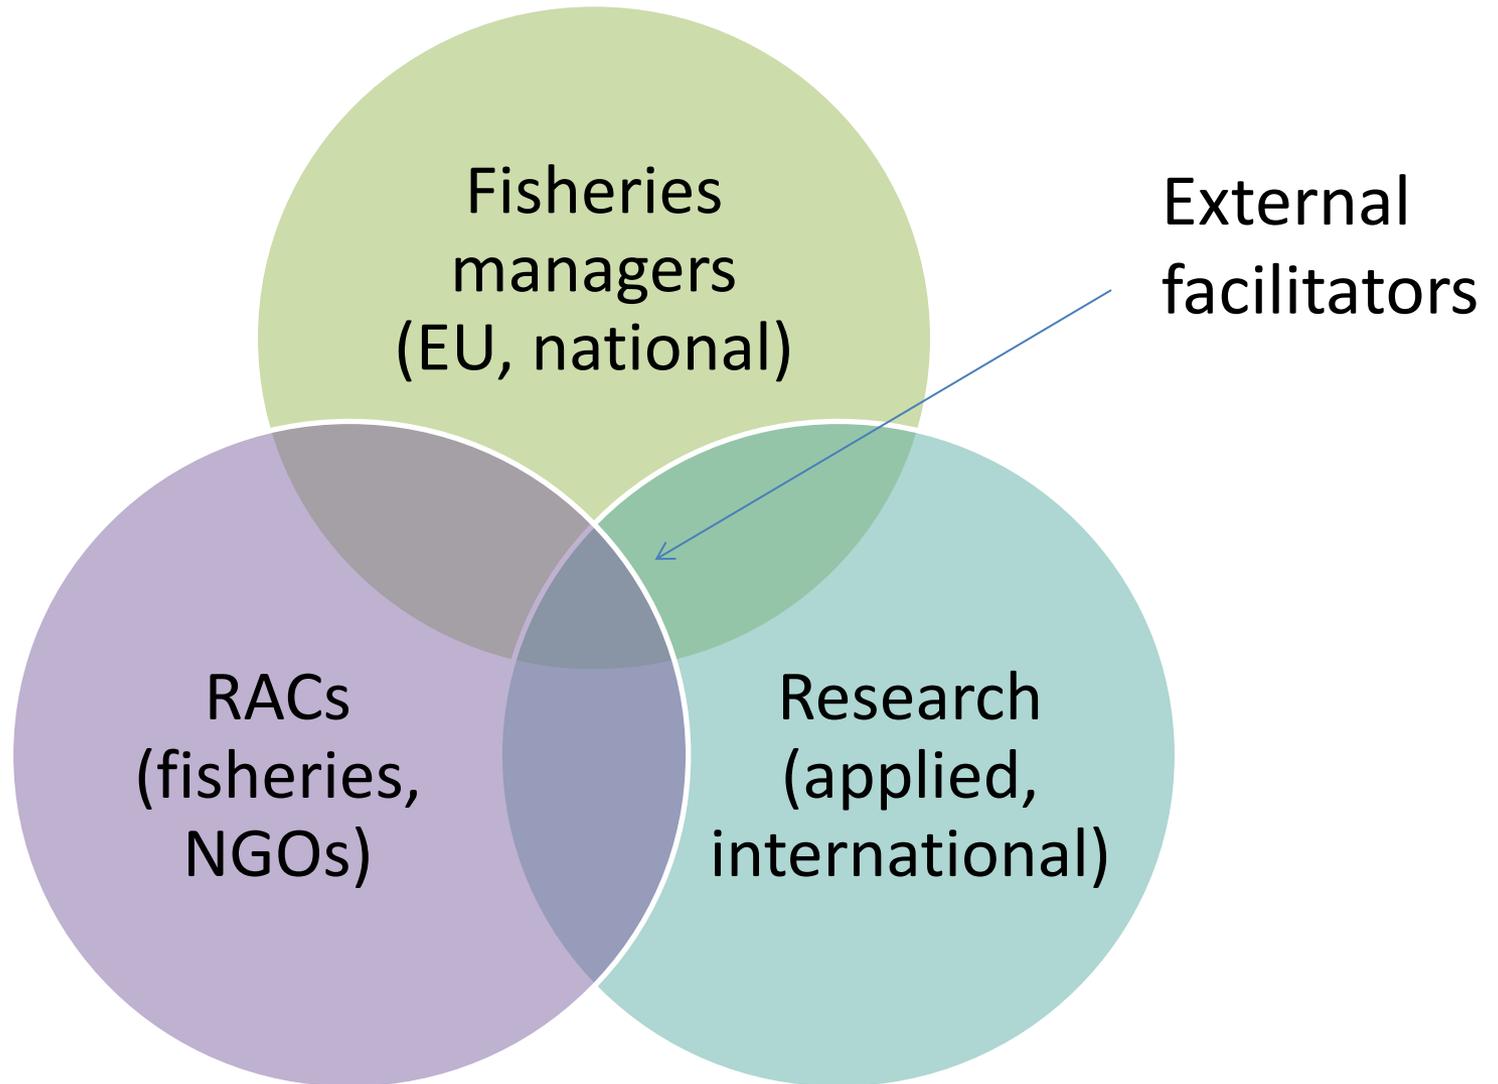

how different knowledge and interests are manifested in a stakeholder-led collaboration aimed at producing a management tool for EU fisheries.

3. Facilitate dialogue: address needs

26 February 2014, Brussels

Dialogue meeting on knowledge needs for regionalized fisheries policy

Consensus statements

Means of engaging stakeholders properly in the regional management process.

Trust in data needs to be bigger by engaging stakeholders more in data collection and analysis

Is a common understanding:

desirable?

feasible?
