

The banner features a large globe of the Earth in the center. The word "Delta" is in a large, bold, black font, and "Alliance" is in a smaller, blue font. The "A" in "Delta" is stylized with a blue shape. In the top left corner, the "Delta Alliance" logo is displayed. In the top right corner, there are two small images: one of a boat on a river and another of a city skyline. In the top right corner, there is also a logo for "Knowledge for Climate" with three colored dots (blue, red, green) and the text "Knowledge for Climate". The bottom of the banner has a blue bar with the website address "www.delta-alliance.org".

September 2014
Renske Peters
director Delta Alliance

Mission

**To contribute to improved resilience of the world's
deltas through:**

- Sharing knowledge
- Identifying knowledge gaps
- Developing jointly new knowledge
- Reducing unnecessary overlap
- Building capacity

Delta Alliance Declaration

The members of Delta Alliance will develop and share knowledge to:

- measure, monitor and report resilience
- provide for improved resilience

In pursuing these goals, members will strive to:

- share knowledge, expertise and best practices
- co-create and integrate knowledge across deltas and disciplines
- connect expertise and parties from throughout watersheds
- incorporate **local** knowledge
- support education, policy development, investments and disaster response.

The International Wings

Organisational Structure

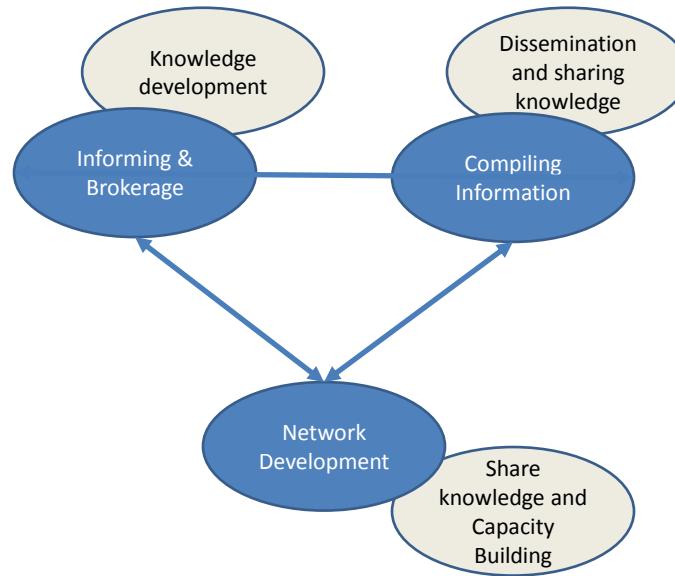

Partnering

Most promising cooperation

- Continued cooperation with the Global Water Partnership (GWP)
- and the GEF Trans-boundary Waters Assessment Programme (TWAP)
- Closer cooperation with the Dutch Ministries

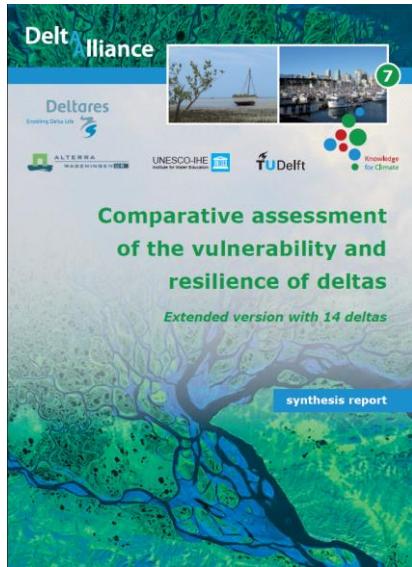

4. Knowledge sharing

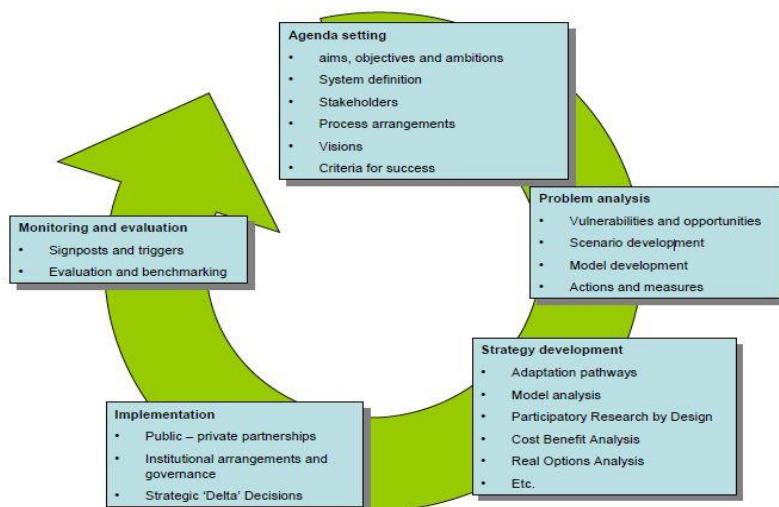

Main activities

- Organisation of and participation in international conferences and workshops: keynotes, presentations, delta-sessions
- Capacity building activities (6 major workshops)
- Newsletter
- Website

Toolbox Adaptive Delta Management

Outlook 2014 - future

- Network development deltas worldwide
- stimulate delta dialogues
- Comparative assessments ,Toolbox
- Research gaps, Connect demand and supply research
- Broker/ portal function between research, policymakers, private sector

Sustainable Deltas 2015 initiative

- Increasing awareness, accelerating scientific progress, knowledge sharing through
- International partnerships and networking at all levels
- 2015 momentum
- Outcome: solutions and research gaps
- Audience: policymakers, research and private sector
