

DS3 Indonesia: NCICD, from planning to implementation

Questions for buzz groups

- How to *achieve a **paradigm shift** in project planning and implementation arrangements* to make such a complex project possible (*what are crucial factor for paradigm shift?*)
- How can the **government become entrepreneurial** and establish **trust** and **new forms of engagement** between the public and private sector?
- How to **mandate and monitor a decisive implementing authority**, also as vehicle for development?
- How can immediate **short term measures be implemented** while still shaping **long term solutions** (no regret)
