

Science-to-Action: Aligning science with stakeholder and community needs

- Chairs: Robert J. Nicholls, Zachary D. Tessler
- Presentations:
 - **Dr. Marcel Marchand**, Deltares, the Netherlands
 - Water management challenges in the Mekong Delta in a changing climate
 - **Prof. Ho Long Phi**, Vietnam National University, Vietnam
 - Mekong Delta development: A multi-actor analysis
 - **Dr. Irina Overeem**, University of Colorado, USA
 - Modelling of delta processes: A web-based toolbox
 - **Dr. Zita Sebesvari** and Dr. Fabrice Renaud, United Nations University, Germany
 - Data for vulnerability assessments: Problems of accessibility and availability

Discussion Questions (to start)

- *What positive or negative trends do you observe with respect to your delta?*
- *What information do you base these assessments on?*
- *What critical knowledge or data gaps are hindering progress?*
- *Are these the right questions? What else should be asked?*
