<b>Licenses public version of the service</b>	CC0	CC-BY (figures, media, posters, papers, filesets) CC0 (Metadata only & datasets) MIT License, GNU, Apache License (Software)	CC0 (Metadata) Closed access upload possible "Users must specify a license for all publicly available files."	Uploaders get a choice of options that includes: CC0 CC BY CC BY NC MIT Apache 2.0 GPLv3 BSD 2 Clause BSD 3 Clause	"Open access", "open access for registered users" and restricted access. "Open access" implies a CC0 waiver.	"Open access" with possibilities of embargo, no specific license mentioned in deposit license agreement.
<b>Single file size</b>	2GB	5GB (250 MB)	2GB	No information	No information	No information
<b>Total disk space</b>	Extra charge for larger sets	20 GB	"Please be aware that we cannot offer infinite space for free, so donations from heavy users towards sustainability are encouraged."	No information	No information	10 GB per researcher
<b>File formats</b>	<a href="http://datadryad.org/pages/filetypes">http://datadryad.org/pages/filetypes</a>	"We accept any file format and aim to preview all of them in the browser."	"All formats are allowed - even preservation unfriendly. We are working on guidelines and features that will help people deposit in preservation friendly formats."	"Any file type can be uploaded to Mendeley Data. We have preview capabilities for some file types (e.g. PDF, text, etc.) and will continue to work on adding more."	<a href="https://dans.knaw.nl/en/deposit/information-about-depositing-data/DANSpreferredformatsUK.pdf">https://dans.knaw.nl/en/deposit/information-about-depositing-data/DANSpreferredformatsUK.pdf</a>	<a href="http://researchdata.4tu.nl/fileadmin/editor_upload/File_formats/Preferred_formats.pdf">http://researchdata.4tu.nl/fileadmin/editor_upload/File_formats/Preferred_formats.pdf</a>
<b>Paid?</b>	\$120 (> 20 GB extra charge)	No (institutional pricing on request)	No	No	Not for Wageningen University & Research <sup>i</sup>	Not for Wageningen University & Research <sup>ii</sup>
<b>Private/public</b>	Not-for-profit company, initial funding from NSF (USA)	Private, part of Macmillan Inc.	Hosted by CERN	Private, part of Elsevier Science	Public, part of KNAW (Royal Dutch Academy of Sciences) and NWO	Public, owned by four Dutch Technical Universities

	Dryad	Figshare	Zenodo	Mendeley data	DANS	4TU.Centre for Research Data
<b>Special relationships</b>	Reduced fee or free for certain journal, see <a href="http://datadryad.org/pages/journalLoLokup">http://datadryad.org/pages/journalLoLokup</a> Embedded in their article submission workflow	Embedded in PLOS article submission workflow	EU (output of the OpenAIREplus project and used for data in the EU data management pilot)	There are plans to integrate with the submissions workflow of Science Direct	DANS assesses data management plans for projects funded by NWO (Netherlands)	Special relationship – in the form of reduced rates and additional services - with the Technical universities of Delft, Eindhoven, Twente and Wageningen
<b>Special features</b>	Aims to integrate with specialized data repositories (“handshake partners”), at this moment in place for Treebase and Genbank.	Integration with ORCID, usage metrics integrated with Impactstory.	Integration with <a href="#">GitHub</a> to make code hosted in GitHub citable.	Versioning procedure in place.	Integrated with Dutch academic document repository in <a href="http://www.narcis.nl">www.narcis.nl</a>	Can store data to be delivered as NetCDF.
<b>Data curation by the service?</b>	Yes “The Dryad repository has a curatorial team that works to enforce quality control on existing content in Dryad and collaborate in development of the repository”	No No specific mention of quality control. Humans look at data to make sure they are “appropriate academic content”. Those who upload must make sure they are not breaching codes of conduct, or laws.	No “Zenodo makes no promises of usability and understandability of deposited objects over time.”	Yes DANS keeps a “dark archive” for preservation services and takes measure there to ensure usability over time.	Yes All data is actively curated to ensure conformance to quality standards (“Data Seal of Approval”).	Yes Data consistency and adherence to guidelines is checked before data is made public.
<b>Persistent identifier</b>	DOI or Handle	DOI	DOI	DOI	DOI, URN:NBN	DOI

<sup>i</sup> As a rule there is no cost for Wageningen University & Research if you publish data through the Library at DANS or 4TU.Centre for Research Data. In the exceptional case that there is a cost we will consult with you beforehand.
