

Horticultural research cooperation between Indonesia and the Netherlands - HORTIN

Project GENE BANK - Management of collections (field) of tropical ornamentals Proyek GENE BANK - Pengelolaan koleksi plasma nutfah tanaman hias tropis

Aim

The overall aim is to optimise the conservation of the collections of tropical ornamentals maintained by IOCRI.

Activities

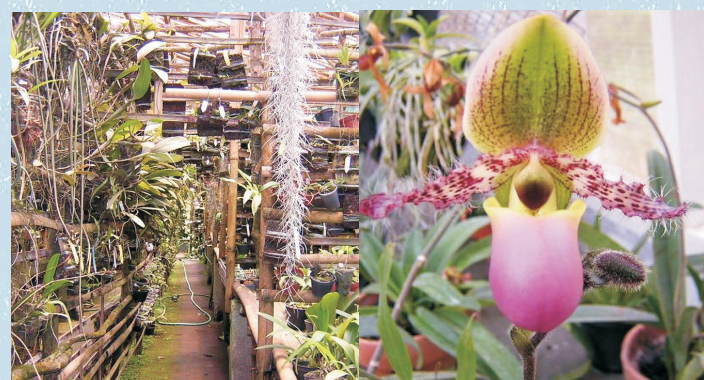

- To improve plant genetic resources (PGR) management of the collections by optimising the acquisition, maintenance, characterisation, evaluation and documentation
- To implement a functional documentation system
- To improve access of the collections
- To train IOCRI staff in PGR management

Tujuan

Mengoptimalkan konservasi tanaman hias tropis koleksi Balai Penelitian Tanaman Hias.

Kegiatan

- Memperbaiki pengelolaan koleksi sumber daya genetik melalui optimalisasi akuisisi, pemeliharaan, karakterisasi, evaluasi dan dokumentasi
- Menerapkan fungsi sistem dokumentasi
- Memperbaiki akses koleksi
- Melatih staf Balitih di bidang pengelolaan sumber daya genetik

Partners/Institusi yang terlibat

- Indonesia Ornamental Crop Research Institute (IOCRI), Segunung
- Centre for Genetic Resources, the Netherlands (CGN)

For further information please contact:

Dr. Kusumah Effendie, Indonesia Ornamental Crop Research Institute (IOCRI), Segunung. E-mail: kusumahf@indoway.net

Dr. C. Kik, Centre for Genetic Resources, the Netherlands, P.O. Box 16, 6700 AA Wageningen. E-mail: chris.kik@wur.nl

Projects

Fruit fly control in Indonesia (FRUITFLY)

Revitalising Indonesian garlic agriculture (GARLIC)

Managing a field collection of tropical ornamentals (GENEBANK)

Introduction of haploid technologies in Indonesia (HAPLIN)

Increasing mushroom production in Indonesia (MUSHROOM)

Sustainable tropical plastic house flower production systems (PROTFLOW)

Sustainable tropical plastic house vegetable production systems (PROTVEG1)

Protected cultivation of vegetables and Integrated Pest Management (PROTVEG2)

Product safety and quality management in vegetable production systems (QUALITY)

Managing the most important seed-borne diseases of vegetables in Indonesia (SEEDS)

HORTIN is sponsored by IAARD of the Ministry of Agriculture, Indonesia and the Ministry of Agriculture, Nature and Food Quality, the Netherlands.
