Where can you find (open) educational material?

Interactive: Mentimeter 2

www.mentimeter.com CC-BY-SA 4.0

Motivation for making L4L

- More and more Digital Educational Material @WUR
- Unknown where and how many: Scattered around university on servers, networks and personal drives
- A need to collect the DEMs, gather them and make them findable and reusable for others

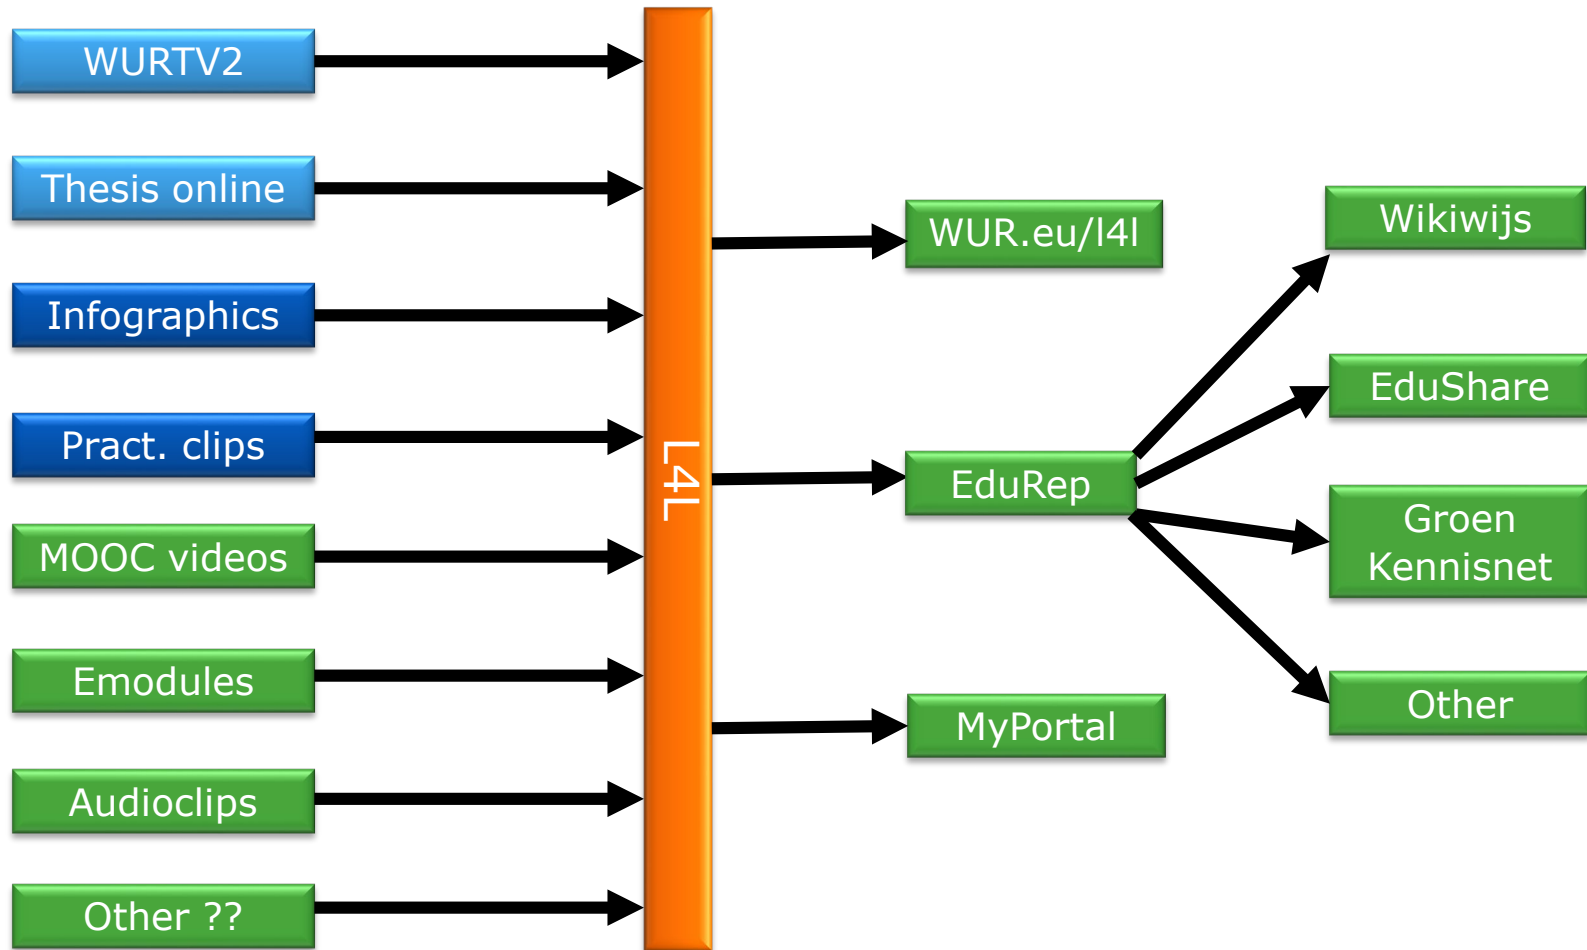

[©Annielogue](#) CC-BY-SA

Our goals

Making a portal so teachers:

- Can search and find DEM from the WUR
- Are stimulated to reuse or get inspired by material of others
- Can share their material with other teachers (WUR/Public)

What is in it for you?

- Finding other Educational material from the WUR
 - Less work:
time/money/quality
 - More contact with other teachers
 - Clarity on educational themes within WUR
 - Clarity about copyrights...

Owen Moore CC-BY 2.0

What is in it for you?

- Sharing your own material in an open environment:
 - Showing (off) your material (also outside of the WUR!)
 - As a storing place
 - Easy to trace: also for students (link in BB Course)
 - ...

What if you want to share your material via L4L?

- Video made in studio: automatically via WURTV2 in L4L
(But needs metadata to be found!! So deliver that!)
- Video made by yourself (on youtube/vimeo): Contact us
- All other material (for now): Contact us.
 - What we need from you:
 - (link to) materials
 - Metadata
 - (Open) License
