Step by Step:
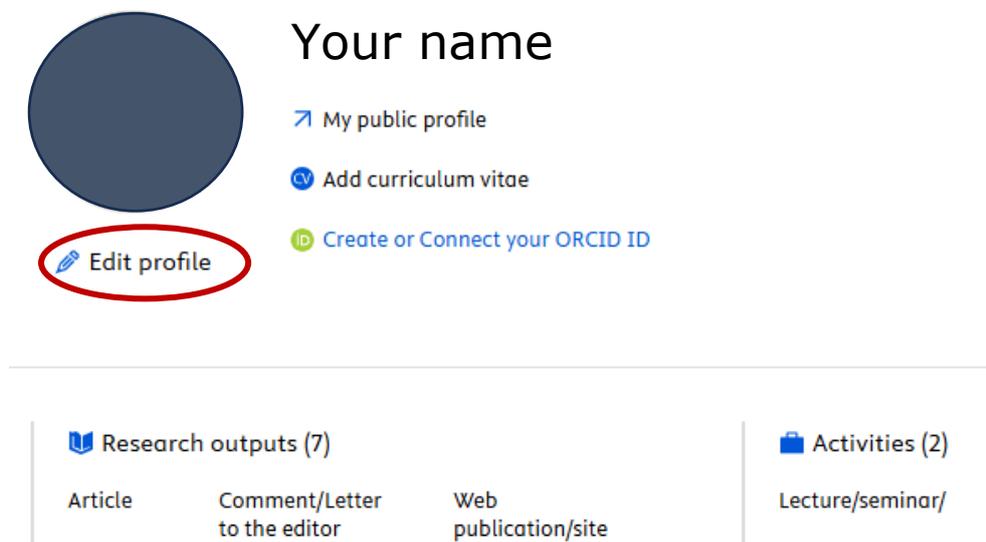

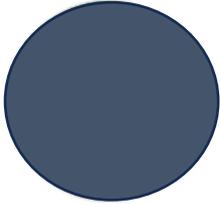

How to automatically update your ORCID via Pure

1. Go to Pure (https://ris.wur.nl) and log-in, using your WUR username and password (if you work from home, be sure to switch on VPN first via FortiClient).

2. In Pure, go to your **Personal Overview** and click on **Edit profile**

3. In **Edit profile** you can click on **Create or Connect your ORCID ID**. This will take you to the ORCID website where you can log-in to ORCID or create an ORCID ID.

Add file...

4. You will then see the following screen. Click on both tick boxes to give Pure permission to read data on your ORCID and export data to your ORCID. Then click on **Proceed**.

Connect with your ORCID ID

You will now be directed to the ORCID site where you can generate your ORCID ID (if you don't already have one) and authenticate it.

Upon authenticating your ORCID ID, you will grant read permissions to Pure. It means Pure will be able to read public and limited visibility items on your ORCID record and search on your behalf.

☐ Pure is allowed to read public and limited visibility items on my ORCID record (Required to proceed).

Before allowing Pure to export content on your behalf to ORCID, please read the information below carefully.

You can grant Pure permission to export content to ORCID (write rights) by checking the checkbox below. If you do so, upon setup, Pure will export the following content immediately, and then subsequently automatically update it at a frequency determined by your Pure administrator:

- Institutional organisational affiliation
- Other personal identifiers (e.g. Scopus author ID, Researcher ID)
- Your research outputs, where:
  - the publication status is 'E-pub ahead of print, Published'
  - the visibility of the record is 'Public - No restriction'
  - the workflow step is at least 'Validated'.

Pure will not export information from persons with backend or campus visibility.

☐ I hereby allow Pure to export data to ORCID on my behalf.

Cancel   Proceed

5. You will now enter ORCID. Either sign in with your ORCID or email, or register for an ORCID here.

6. Once in ORCID, you will be requested to **Authorize access**.

Wageningen University & Research

Show details

This organization has asked for the following access to your ORCID record:

- Add/update your research activities (works, affiliations, etc.)

- Add/update information about you (country, keywords, etc.)

- Read your information with visibility set to Trusted parties

- Get your ORCID iD

If authorized, this organization will have access to your ORCID record, as outlined above and described in further detail in ORCID's privacy policy.

You can manage access permissions for this and other Trusted Organizations from within your list of trusted parties.

Authorize access

Deny access

7. After authorization in ORCID, you are re-directed back to Pure, and your ORCID ID will now appear in your personal Pure profile.

If you want to show your ORCID on your Research@WUR profile page, go to We@WUR and add it to your personal page under Researcher IDs. Don't forget to set your personal page to 'public'.

For some more information on the benefits of having an ORCID, check out this knowledge article.
