FIRST APPROXIMATION OF THE RECONNAISSANCE SOIL  
MAP OF SURINAM

SCALE 1 : 4.000.000

## Legenda:

### Legend:

1. oppervlakkig gerijpte en ontzilte zeeklei zwampgronden  
superficially ripened and desalinised marine clay swamp soils  
*saline hydromorphic soils*
2. gerijpte en ontzilte zeeklei zwampgronden met zoute ongerijpte  
ondergrond  
ripened and desalinised marine clay swamp soils with saline mud  
subsoil  
*low humic gley soils, humic gley soils, bog soils, organic soils*
- 2 (dubbele gerijpte en ontzilte zeeklei poldergronden met zoute ongerijpte  
arcering) ondergrond  
(cross ripened and desalinised marine clay polder soils with saline mud  
hatched) subsoil  
*low humic gley soils*
3. ongerijpte, ontzilte zeeklei zwampgronden met pegassedek tezamen  
met gerijpte, ontzilte fluvio-mariene kleizwamp- en klei-oevergronden  
en drasse scholgronden  
unripened, desalinised marine clay swamp soils with superficial peat  
accumulation; inclusions of ripened desalinised fluvio-marine clay  
swamp soils and clay riverbank soils and of poorly drained silty  
terrace soils  
*catclay soils, bog soils, organic soils, low humic gley soils,  
planosols, groundwater podzols, groundwater laterites*
4. veenmoerasgronden  
peat and bog soils  
*organic soils*
5. zand- en schelpritsgronden  
sandy and coquineous beach ridge soils  
*regosols, groundwater podzols, red-yellow podzolic soils*
6. gebleekte en bruine grofzandterrasgronden  
bleached and brown coarse sandy terrace soils  
*regosols, groundwater podzols, red-yellow podzolic soils*
7. zandige plateau verweringsgronden  
sandy residual plateau soils  
*regosols*

vervolg z.o.z./cont'd

**Legenda:**

**Legend:**

8.           gebleekte en bruine zandige verweringsgronden op penepains en  
              heuvels  
              bleached and brown sandy residual soils on penepains and hills  
              *regosols, groundwater podzols, groundwater laterites, red-yellow  
              podzolic soils*
  
9.           oranje en gele grofzandige leem verweringsgronden op siallitische  
              heuvels en -berghellingen  
              orange and yellow coarse sandy loam residual siallitic soils on hills  
              and mountains  
              *red yellow podzolic soils, groundwater laterites*
  
10.          oranje rode klei verweringsgronden met ferrietsteentjes op fersial-  
              litische heuvels en berghellingen  
              reddish yellow clayey concretionary residual fersiallitic soils on hills  
              and mountains  
              *red yellow podzolic soils, groundwater laterites*
  
11.          rode laterische klei verweringsgronden op ferallitische heuvels en  
              berghellingen  
              concretionary red earth residual ferrallitic soils on hills and  
              mountains  
              *red latosols, red yellow podzolic soils, groundwater laterites*
