Assignment Video 3 '[Communication about animal welfare issues](#)'

Discuss in your team (sharing 2 by 2 followed by a plenary follow-up):

Heidi found it difficult to give concrete examples of animal welfare problems that she encountered in her inspections. Not because they don't exist - but because it can be problematic to deliver on a publicly available video.

***Give examples on concrete examples of animal welfare problems and how you communicated with the farmer about it?**

Exchange examples.
