The original article has been corrected. In Table 1 of this article, the data in the third column headed Author type was incorrect. “Non-Party:” was in the fifth row and should have been in the forth row next to (23,313), the next row (9900) should then have been “off which IPCC”, and the final row (1981) should have been “of which Secretariat”. This has now been implemented in the corrected version.

Figure 1 was updated for clarity.
